Dear Member,

RE: 2020 MONTHLY TRAINING FEE INCREASE

After a review of current monthly training fees it has been decided an increase is needed as follows.

A decision to increase fees is not taken lightly, however the last monthly training fee increase was **12** years ago in **2007**.

Every year our running costs increase (hire rates, insurance, equipment costs) and in order to continue providing the current classes we have decided that a fee increase is necessary.

New monthly training fees will be effective **1st January** so please ensure that you alter your existing standing orders over the Christmas break.

Thank you for your support.
